

Take a break and come spend a time wandering through a beautiful 20 acre rock garden! The beauty and diversity will amaze you! Call today! 785-866-5685 or 785-844-3936 and ask for Martha.

When Paul Fritz retired from farming and his job as a welder, he needed something to do to fill the endless hours. He decided to expand the rock garden at his home. The rock garden now encompasses 20 acres. He and his wife Martha have planted roses and various flowers, trees, and shrubs in these areas. Many of the rocks, ranging from large boulders to smaller rocks have been dug up from their pasture and the neighboring pastures. Paul has also used his welding experience to build arbors and trellises that are placed around the area.

Paul and Martha warmly welcome any visitors to come to the farm and see the garden located at 345 Y Road, 1 mile east and 1 3/4 miles north of Wetmore, Kansas.

Paul and Martha Fritz have created a spectacular rock garden on their home property outside Wetmore. Not only are there amazing native rocks of all sizes that have been moved in from neighboring fields, you can view a wide variety of flowers, plants and grasses. Paul is a retired welder. He has put his talents to work and built trellises though out the garden for the vineing plants to grow on. Paul and Martha invite you to stop by and stroll through their 20 acre creation located just outside Wetmore at 345 Y Rd.
